International Checklist List of Cultivated *Buxus* L.

by Lynn R. Batdorf¹

This enumeration follows the provisions of the 9th edition *International Code of Nomenclature for Cultivated Plants (Code)*, published in June 2016 by the International Society of Horticultural Science (ISHS), Leuven, Belgium. Registered and accepted cultivar epithets, which have been properly established, appear in ‘**boldface type**’. Cultivar epithets lacking nomenclatural status or recognized as synonyms appear in ‘lightface type’. Indeterminate names and epithets contrary to the *Code* are rejected as not established and appear in (parenthesis). Botanical taxa appear in **bold italic type**. For each entry, the earliest known correct citation is provided.

The Registrar invites corrections or additions with citation or registration information. Please forward to: American Boxwood Society, P.O. Box 85, Boyce, Virginia, US 22620-0085; amboxwoodsociety@gmail.com.

Buxus Carl Linnaeus *Species Plantarum* 983.1753.

Buxus balearica Jean-Baptiste Lamarck in *Encyclopédie Méthodique, Botanique*. Paris, Liège: Panckoucke, Plomyeux. 1:511.1785.

‘**Marginata**’ P. Corbelli in *Dizionario di Floricoltura* 1:231.1873.
